PERMIT 3290

APPLICATION 6242

THIS IS TO CERTIFY, That **United States, Mono National Forest,
Reno, Nevada.**

Notice of Assignment (Over)

bas made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of (1) Humiston Spring, (2) Middle Spring, (3) and (4) Middle Creek (5) Hedderly Spring and (6) Hedderly Creek in Mono County, tributary of Gull Lake

for the purpose of domestic use under Permit 3290 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from

April 9, 1929;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed (1) forty-seven hundred (4700) gallons per day, (2) six hundred sixty-five (665) gallons per day, (3) four hundred (400) gallons per day, (4) four hundred fifty (450) gallons per day, (5) five hundred (500) gallons per day and (6) nineteen hundred (1900) gallons per day, total eighty-six hundred fifteen (8615) gallons per day from about May 1st to about October 31st of each season.

The points of diversion of such water are located (1) South five hundred fifty (550) feet, (2) South thirty-nine degrees west (S. 39°00' W.) Sixteen hundred seventy (1670) feet, (3) South forty-five degrees fifteen minutes west (S. 45°15' W.) Sixteen hundred thirty (1630) feet, (4) South forty-six degrees forty-five minutes west (S. 46°45' W.) Sixteen hundred ten (1610) feet, (5) South thirty six degrees fifteen minutes west (S. 36°15' W.) twenty-one hundred thirty (2130) feet and (6) South thirty-eight degrees forty-five minutes west (S. 38°45' W.) two thousand eighty-five (2085) feet, all from the southwest corner of the NW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 14, T 28, R 26 E, M.D.B. & M. and being within the (1) SE $\frac{1}{4}$ of NW $\frac{1}{4}$ (2) NE $\frac{1}{4}$ of SW $\frac{1}{4}$ (3) SE $\frac{1}{4}$ of NW $\frac{1}{4}$ (4) SE $\frac{1}{4}$ of NW $\frac{1}{4}$ (5) NE $\frac{1}{4}$ of SW $\frac{1}{4}$ and (6) NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 14.

A description of the lands or the place where such water is put to beneficial use is as follows:

Lots 1, 2, 3, 4, 8, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 27, 31, 32, 37, 38 and 52 of Gull Lake Tract, upper and lower Gull Lake Public Camp Grounds and Gull Lake Ranger Station of Mono National Forest and being within the SE $\frac{1}{4}$ of NW $\frac{1}{4}$, NE $\frac{1}{4}$ of SW $\frac{1}{4}$ and SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 14 and NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 15, T 28, R 26 E, M.D.B. & M.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Division of Water Resources in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Division of Water Resources.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes of 1913, as amended, which is as follows:

Sec. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated; but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, that at any time after the expiration of twenty years after the granting of a license, the state or any city, county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as it now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee, or licensee, or the heirs, successors, or assigns, of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors, or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. The findings and declaration of said commission shall be deemed unimpeachable and upon so further appropriation shall be made by a court of competent jurisdiction; provided, that any action brought to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittees or licensees, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittees or licensees, or the possession of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and providing, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs thereof, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and providing, further, that in line of the granting of such temporary permit for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal use of the entire appropriation permitted; and providing, further, that when such municipality shall desire to use the additional water granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and appling such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.

APPLICATION 6242 PERMIT 3290 LICENSE 2056

ORDER ALLOWING CHANGE IN THE POINTS OF DIVERSION

WHEREAS:

1. License 2056 was issued to U. S. Mono National Forest and was filed with the County Recorder of Mono County on September 17, 1940.
2. License 2056 was subsequently assigned to U. S. Inyo National Forest.
3. An order allowing change in points of diversion and place of use was granted on July 21, 1983 and has been recorded with the County Recorder of Mono County on August 1, 1983 in Volume 386, Page 293.
4. A petition for change in points of diversion has been filed with the State Water Resources Control Board and said Board has determined that good cause for such change has been shown.
5. The Board has determined that the petitioned changes do not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The points of diversion under this license shall be as follows:
 1. Twin Springs: South 1,228 feet and West 2,006 feet from NE corner of Section 22, T2S, R26E, MDB&M, being within NW $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 22.
 2. June Lake - North 8° 38' 38" East 1,843.7 feet from S $\frac{1}{4}$ corner of Section 11, T2S, R26E, MDB&M, being within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 11.
2. The amount of water under this license shall be amended to read as follows:

The maximum amount of water under this license shall not exceed 8,615 gallons per day from about May 1 to about October 31 of each year.

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.

(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)19. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

20. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

Amount of water conserved.

Specify in acre-feet (AF) or million gallons (MG)

2001	2002	2003

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)21. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

22. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

Amount of reclaimed, desalinated, or polluted water used.

Specify in acre-feet (AF) or million gallons (MG)

2001	2002	2003

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)23. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

24. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

Amount of groundwater used in lieu of surface water.

Specify in acre-feet (AF) or million gallons (MG)

THIS IS TO CERTIFY, That

United States Inyo National Forest
Bishop, California

has made proof as of August 23, 1956
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
Twin Springs in Mono County

tributary to Reversed Creek

for the purpose of municipal and domestic uses
under Permit 5656 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from May 23, 1940
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed one hundred sixty-three
thousandths (0.163) cubic foot per second to be diverted from January 1 to
December 31 of each year.

The point of diversion of such water is located:
South fifty-five degrees west (S55°W) two thousand three hundred twenty (2320) feet
from NW corner of Section 22, T2S, R26E, MDB&M, being within NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of said
Section 22.

A description of the lands or the place where such water is put to beneficial use is as follows:

June Lake Fire District being within Sections 11, 14 and 15, T2S, R26E, MDB&M,
as shown on map filed with State Water Rights Board.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein conferred subject to the following provisions of the Water Code:

Section 1621. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.

(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)19. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

20. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

	2001	2002	2003
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)21. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

22. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

	2001	2002	2003
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)23. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

24. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

	2001	2002	2003
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)

PERMIT 8774

LICENSE 5355

THIS IS TO CERTIFY, That

United States Inyo National Forest
Bishop, California

has made proof as of August 23, 1956
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
an unnamed spring in Mono County

tributary to June Lake

for the purpose of municipal and domestic uses
under Permit 8774 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from November 16, 1950
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed one hundredth (0.01) cubic
foot per second or approximately six thousand five hundred (6,500) gallons per day
to be diverted from January 1 to December 31 of each year.

The point of diversion of such water is located:

South one hundred thirty-five (135) feet and east two hundred forty-two (242) feet
from NW corner of SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 14, T2S, R26E, MDB&M, being within SW $\frac{1}{4}$ of
NE $\frac{1}{4}$ of said Section 14.

A description of the lands or the place where such water is put to beneficial use is as follows:

June Lake Subdivision being within Sections 11, 14, and 15, T2S, R26E, MDB&M,
as shown on map filed with State Water Rights Board.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the service or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

Application 14059 Permit 8774 License 5355

ORDER AMENDING LICENSE

WHEREAS:

1. License 5355 was issued to the United States, Inyo National Forest, and recorded at the office of the Mono County Recorder on August 22, 1958.

License 5355 was amended by an Order Allowing Change In Point of Diversion dated July 21, 1983. The License was amended again by an Order Allowing Change In Point of Diversion dated March 27, 1985.
3. License 5355 as amended, confers upon the United States, Inyo National Forest, an appropriative right to use water from Twin Springs and June Lake in Mono County.
4. Fish and Game Code Section 5946 requires that the State Water Resources Control Board condition Licenses that authorize diversion of water in Department of Fish and Game District 4 ½ (Inyo and Mono Counties) to specify compliance with Section 5937 of the Fish and Game Code.
5. The License and subsequent Charge Orders were issued without referencing compliance with Section 5937.
6. Since amendment of License 5355 to require compliance with Fish and Game Code Section 5937 is a ministerial action, this Order is exempt from the provisions of the California Environmental Quality Act (CEQA) and the State CEQA Guidelines in accordance with Section 21080 of the Public Resources Code.

NOW, THEREFORE, IT IS ORDERED THAT:

The following condition is added to this License:

APPLICATION 14059 PERMIT 8774 LICENSE 5355

ORDER ALLOWING CHANGE IN POINT OF DIVERSION

WHEREAS:

1. License 5355 was issued to U. S. Inyo National Forest and was filed with the County Recorder of Mono County on August 22, 1958.
2. An order allowing change in place of use and adding an additional point of diversion was granted on July 21, 1983 and was filed with the County Recorder of Mono County.
3. A petition for change in point of diversion has been filed with the State Water Resources Control Board and said Board has determined that good cause for such change has been shown.
4. The Board has determined that the petitioned change does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The points of diversion under this license shall be as follows:
 - (1) Twin Springs - South 1,228 feet and West 2,006 feet from NE corner of Section 22, T2S, R26E, MDB&M, being within NW $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 22.
 - (2) June Lake - North 8°38'38" East 1,843.7 feet from S $\frac{1}{4}$ corner of Section 11, T2S, R26E, MDB&M, being within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 11.

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.
(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

19. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

20. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

	2001	2002	2003
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

21. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

22. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

	2001	2002	2003
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

23. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

24. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

	2001	2002	2003
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)

License for Diversion and Use of Water

Notice of Change (Over)

APPLICATION 16687

PERMIT 10597

LICENSE 6020

THIS IS TO CERTIFY, That

June Lake Fire District
Box 204
June Lake, California

has made proof as of July 16, 1958

(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
Twin Springs Creek (Snow Creek) in Mono County

tributary to Reversed Creek

for the purpose of municipal, domestic and fire protection uses
under Permit 10597 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from October 24, 1955
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed forty-seven thousandths (0.047)
cubic foot per second for domestic and municipal purposes or thirty-four hundredths
(0.34) cubic foot per second total for domestic, municipal and fire protection
purposes to be diverted from January 1 to December 31 of each year, provided
however that nothing herein contained shall be construed as confirming in licensee
any right which shall be good as against a subsequent appropriator to an amount
for fire protection purposes in excess of what is reasonably necessary to maintain
an adequate reserve in storage for fire protection except when there exists an
actual need thereof for fire fighting use.

The point of diversion of such water is located :

South one thousand two hundred twenty-eight (1228) feet and west two thousand
six (2006) feet from NE corner of Section 22, T2S, R26E, MDB&M, being within NW $\frac{1}{4}$
of NE $\frac{1}{4}$ of said Section 22.

A description of the lands or the place where such water is put to beneficial use is as follows:

Sections 11, and 14, T2S, R26E, MDB&M, as shown on map filed with the State
Water Rights Board.

This license is conditioned upon full compliance with Section 5937 of the Fish
and Game Code.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

PERMIT No. 10597

This is to certify that the application of which the foregoing is a true and correct copy has been considered and is hereby approved SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed thirty-four hundredths (0.34) cubic foot per second to be diverted from January 1 to December 31 of each year.

2. The maximum amount herein stated may be reduced in the license if investigation so warrants.
3. Actual construction work shall begin on or before June 1, 1957, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.
4. Said construction work shall be completed on or before December 1, 1959.
5. Complete application of the water to the proposed use shall be made on or before December 1, 1960.
6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.

7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

8. This permit is conditioned upon full compliance with Section 525 of the Fish and Game Code.

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions, wherein, in substance, shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions that no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER (Water Code section 1010)

19. During the period covered by this Report, were you implementing any water conservation efforts? **Yes** If **YES**, please describe:

General effort via written notices. Implemented a meter installation program in 2002 with completion date of 2007

20. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

Amount of water conserved: *specify in acre-feet (AF) or million gallons (MG)*

The place of use is shown on map filed with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 0.4 cubic foot per second to be diverted from January 1 to December 31 of each year. The maximum amount diverted under this permit shall not exceed 290 acre-feet per year. (0000005)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)

7. Complete application of the water to the authorized use shall be made by December 1, 1995. (0000009)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (0000010)

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater; (4) to reduce return flow; (5) suppressing evaporation losses from water surfaces; (6) controlling phreatophytic growth; and (7) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

12. This permit shall not be construed as conferring upon the permittee right of access to the point of diversion. (0000022)

13. The equivalent of the continuous flow allowance for any 7-day period may be diverted in a shorter time, provided there be no interference with other rights and instream beneficial uses; and provided further that all terms or conditions protecting instream beneficial uses be observed. (0000027)

14. Permittee shall consult with the Division of Water Rights and the California Department of Water Resources and develop and implement a water conservation plan or actions. The proposed plan or actions shall be presented to the Board for approval within one year from the date of this permit or such further time as may, for good cause shown, be allowed by the Board. A progress report on the development of a water conservation plan may be required by the Board within this period.

(0000029)

15. In accordance with the requirements of Fish and Game Code Section 5946, this permit is conditioned upon full compliance with Section 5937 of the Fish and Game Code.

(0140066)

16. No water shall be used under this permit until the permittee has filed a report of waste discharge with the California Regional Water Quality Control Board, Lahontan Region, pursuant to Water Code Section 13260, and the Regional Board or State Water Resources Control Board has prescribed waste discharge requirements or has indicated that waste discharge requirements are not required. Thereafter, water may be diverted only during such times as all requirements prescribed by the Regional Board or State Board are being met. No discharges of waste to surface water shall be made unless waste discharge requirements are issued by a Regional Board or the State Board. A discharge to ground water without issuance of a waste discharge requirement may be allowed if after filing the report pursuant to Section 13260:

- (1) the Regional Board issued a waiver pursuant to Section 13269, or
- (2) the Regional Board fails to act within 120 days of the filing of the report.

No permittee shall be required to file a report of waste discharge pursuant to Section 13260 of the Water Code for percolation to the groundwater of water resulting from the irrigation of crops.

(0290101)

17. The State Water Resources Control Board reserves jurisdiction over this permit to revoke or modify it, including the possibility of a physical partition, to conform to the determination of any final judgment or decree in National Audubon Society, et al. v. Department of Water and Power of the City of Los Angeles, et al.

(0350600)

18. The maximum simultaneous rate of diversion and the total quantity of water diverted for domestic and municipal use under this permit, together with that diverted under licensed Application 16687 and permitted Applications 27239, 28123, and 28124, shall not exceed 0.74 cubic foot per second and 536 acre-feet per annum, respectively.

(0000114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

NOTICE OF APPLICATIONS TO APPROPRIATE WATER

APPLICATIONS 27220 and 27239

Notice is hereby given that on February 26, 1982 and March 9, 1982 Respectively

June Lake Public Utility District
P. O. Box 99, Boulder Drive, June Lake, California 93529

Applied to the State Water Resources Control Board for permits to appropriate water, subject to vested rights. The Board has determined that the applications are in compliance with Section 65943 of the Government Code.

APPLICATION 27220

DESCRIPTION OF PROJECT

The applicants seek a right to divert an additional 0.4 cubic feet per second by gravity flow from an unnamed stream via an existing pipeline. The water will be used for the purpose listed below. The project is located approximately 1½ miles southwest from the community of June Lake. This application is in addition to existing water rights A-9907 and A-16687.

"The applicant proposes to incorporate the following water conservation measures in the use of water sought by these applications:

1. Establish a water distribution system leak detection program;
2. Arrange for the inclusion of the Department of Water Resources water awareness programs in the local elementary school;
3. Publicize, or assist publicizing, the availability of water-saving retrofit devices, and distribute free devices to persons requesting them;
4. Require the installation of water meters on all new construction from the effective date of any permit issued pursuant to this applications."

APPLICATION INFORMATION

Water to be appropriated from Unnamed Stream tributary to
Reversed Creek thence Rush Creek thence Mono Lake
Point of Diversion within NW¼ of NE¼ of Section 22, T2S, R26E, MDB&M
In the County of Mono
Amount applied for: 0.4 cubic foot per second by direct diversion
Water to be used for: Municipal purposes
Diversion season named: January 1 to December 31
The maximum amount diverted under this application shall not exceed 290 acre-feet per year.

APPLICATION 27239

DESCRIPTION OF PROJECT

The applicants seek a right to divert an additional 0.4 cubic feet per second by pumping from June Lake via an existing pipeline. The water will be used for the purpose listed below. The project is located approximately ½ mile north from the community of June Lake. This application is in addition to existing water rights A-6242 and A-14059.

"The applicant proposes to incorporate the following water conservation measures in the use of water sought by these applications:

1. Establish a water distribution system leak detection program;
2. Arrange for the inclusion of the Department of Water Resources water awareness programs in the local elementary school;
3. Publicize, or assist publicizing, the availability of water-saving retrofit devices, and distribute free devices to persons requesting them;
4. Require the installation of water meters on all new construction from the effective date of any permit issued pursuant to this applications."

APPLICATION INFORMATION

Water to be appropriated from June Lake tributary to
Reversed Creek thence Rush Creek thence Mono Lake
Point of Diversion within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 11, T2S, R26E, MDB&M
In the County of Mono
Amount applied for: 0.4 cubic foot per second by direct diversion
Water to be used for: Municipal purposes
Diversion season named: January 1 to December 31
The maximum amount diverted under this application shall not exceed 290 acre-
feet per year.

ENVIRONMENTAL INFORMATION

According to the California Environmental Quality Act and its guidelines,
June Lake Public Utility District is the lead agency and will, therefore, be
responsible for preparation of appropriate environmental documents and for
determining whether or not the proposed action will have a significant effect
on the environment. All inquiries concerning preparation of the environmental
documents should be directed to the Lead Agency.

RELATIVE TO PROTESTS

Protests may be based on possible injury to vested rights or an allegation that
the proposed appropriations would not be within the Board's jurisdiction; would
not be in the public interest, would have an adverse environmental impact, or
would be contrary to law. Any person desiring to protest the Board's issuance
of permits pursuant to these applications shall within 40 days from date hereof
(or within such further time as may, for good cause shown, be allowed) file a
written protest with the State Water Resources Control Board, 77 Cadillac
Drive, Sacramento, California 95825 in care of the contact person specified
below. Protest forms will be furnished free of charge upon request. A copy of
any protest shall be sent to the applicant.

COMPLIANCE WITH PERMIT TERMS AND CONDITIONS

This Report is important in providing the record of your actual water use necessary to establish your water right as well as your compliance with the term and conditions of your water right permit. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. I have currently reviewed my water right permit: **Yes X**
2. I am complying with all the terms and conditions listed in the permit : **Yes X**
Identify any noncompliance under "Remarks" below.
3. I have changed the intake location, type(s) of use, and/or place of use authorized by the permit. If yes, explain under "Remarks" below.

Note: A Change Petition and associated fees may be required for any significant changes to the authorized project.

No

PERMITTED PROJECT STATUS

California Water Code section 1396 and 1397 require that permittee(s) exercise due diligence developing an appropriate water right project so that the project is completed within the time period specified in the permit.

Time extensions may be authorized when there is good cause.

4. REVOCATION

The project has been abandoned and I request revocation of this permit.

5. PROJECT COMPLETE

The project has been completed. I have made full beneficial use as to diversion rate, amount, and season anticipated under the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a license be issued.

6. PROJECT HAS NOT BEEN COMPLETED

if the project has not been completed, please answer the following:

- a. Has construction work commenced?
- b. Is construction completed?
- c. Have the permitted beneficial uses of water commenced?
- d. Will the project be completed within the time period specified in the permit?
- e. Explain what work remains to be done:
- f. Give the estimated date of completion of the project, including maximum beneficial use of water:

Note: A time extension petition and associated fees may be required if the project is not completed within the time period specified in the permit.

b. Have you emptied the reservoir(s)?

If No, how many feet below the spillway vertically was the water level(s) at minimum storage ?

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT

(Please note that future amendments to claims below will not be accepted)

An appropriate water right can reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions that no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts, (b) use of recycled, desalinated or polluted water, and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER (Water Code section 1010)

10. During the period covered by this Report, were you implementing any water conservation efforts ?

Yes

If YES, please describe :

Even though water supply sufficient in 2002 customers notified to continue to conserve water. District started a meter installation program in 2002 with completion by 2007

11. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below: in (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

WATER QUALITY AND WASTEWATER RECLAMATION (Water Code section 1010)

12. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses? **No**

13. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below: in

(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

CONJUNCTIVE USE OF SURFACE WATER AND GROUNDWATER (Water Code section 1011.5)

14. During the period covered by this Report, were using groundwater in lieu of the surface water authorized under your permit? **No**

15. If Yes and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below: in

(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

COMPLIANCE WITH PERMIT TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use necessary to establish your water right as well as your compliance with the terms and conditions of your water right permit. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. ☒ YES ☐ NO I have currently reviewed my water right permit.
2. ☒ YES ☐ NO I am complying with all terms and conditions listed in the permit. Identify any noncompliance under "Remarks" on the reverse side.
3. ☐ YES ☒ NO I have changed the intake location, type(s) of use, and/or place of use authorized by the permit. If YES, explain under "Remarks" on reverse side. *Note: A Change Petition & associated fees may be required for any significant changes to the permitted project.*

PERMITTED PROJECT STATUS: California Water Code sections 1396 and 1397 requires a permittee(s) to exercise due diligence in developing an appropriate water right project so that the project is completed within the time period specified in the permit. Time extensions may be authorized for good cause.

CHECK ONE OF THE FOLLOWING CONCERNING YOUR WATER RIGHT PROJECT STATUS:

4. ☐ **REVOCATION** - The project has been abandoned and I request revocation of the permit.
5. ☒ **PROJECT COMPLETE** - The project has been completed. I have made full beneficial use of water as to the diversion rate, amount, and season specified in the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a water right license be issued.
6. ☐ **PROJECT HAS NOT BEEN COMPLETED**
If the project has not been completed, please answer the following:
 - a. ☐ YES ☐ NO Has construction work commenced?
 - b. ☐ YES ☐ NO Is construction completed?
 - c. ☐ YES ☐ NO Have the permitted beneficial uses of water commenced?
 - d. ☐ YES ☐ NO Will the project be completed within the time period specified in the permit?

e. Explain what work remains to be done: _____

f. Give the estimated date of completion of the project, including maximizing beneficial use of water: _____
Note: A time extension petition and associated fees may be required if the project is not completed within the time period specified in the permit.

BENEFICIAL USE(S) OF WATER: (Note: See reverse side for a summary of the beneficial uses of water authorized under your permit.)

7. If your use of water has commenced, check the appropriate boxes below and explain how the water was used:

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.

(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)10. ☒ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:Same on all permits

11. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below:

_____(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)12. ☐ YES ☒ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

13. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

_____(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)14. ☐ YES ☒ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your permit?

15. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

_____(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

The place of use is shown on map filed with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 0.4 cubic foot per second to be diverted from January 1 to December 31 of each year. The maximum amount diverted under this permit shall not exceed 290 acre-feet per year. (0000005)
6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)
7. Complete application of the water to the authorized use shall be made by December 1, 1995. (0000009)
8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (0000010)
9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)
10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board, in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.
- The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)
11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)
12. This permit shall not be construed as conferring upon the permittee right of access to the point of diversion. (0000022)
13. The equivalent of the continuous flow allowance for any 7-day period may be diverted in a shorter time, provided there be no interference with other rights and instream beneficial uses; and provided further that all terms or conditions protecting instream beneficial uses be observed. (0000027)

14. Permittee shall consult with the Division of Water Rights and the California Department of Water Resources and develop and implement a water conservation plan or actions. The proposed plan or actions shall be presented to the Board for approval within one year from the date of this permit or such further time as may, for good cause shown, be allowed by the Board. A progress report on the development of a water conservation plan may be required by the Board within this period. (0000029)

15. In accordance with the requirements of Fish and Game Code Section 5946, this permit is conditioned upon full compliance with Section 5937 of the Fish and Game Code. (0140066)

16. No water shall be used under this permit until the permittee has filed a report of waste discharge with the California Regional Water Quality Control Board, Lahontan Region, pursuant to Water Code Section 13260, and the Regional Board or State Water Resources Control Board has prescribed waste discharge requirements or has indicated that waste discharge requirements are not required. Thereafter, water may be diverted only during such times as all requirements prescribed by the Regional Board or State Board are being met. No discharges of waste to surface water shall be made unless waste discharge requirements are issued by a Regional Board or the State Board. A discharge to ground water without issuance of a waste discharge requirement may be allowed if after filing the report pursuant to Section 13260:

- (1) the Regional Board issued a waiver pursuant to Section 13269, or
- (2) the Regional Board fails to act within 120 days of the filing of the report.

No permittee shall be required to file a report of waste discharge pursuant to Section 13260 of the Water Code for percolation to the groundwater of water resulting from the irrigation of crops. (0290101)

17. The State Water Resources Control Board reserves jurisdiction over this permit to revoke or modify it, including the possibility of a physical solution, to conform to the determination of any final judgment or decree in National Audubon Society, et al. v. Department of Water and Power of the City of Los Angeles, et al. (0350600)

18. The maximum simultaneous rate of diversion and the total quantity of water diverted for domestic and municipal use under this permit, together with that diverted under licensed Application 16687 and permitted Applications 27220, 28123, and 28124, shall not exceed 0.74 cubic foot per second and 536 acre-feet per annum, respectively. (0000114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

The maximum amount diverted under this application shall not exceed 290 acre-
feet per year.

ENVIRONMENTAL INFORMATION

According to the California Environmental Quality Act and its guidelines,
June Lake Public Utility District is the lead agency and will, therefore, be
responsible for preparation of appropriate environmental documents and for
determining whether or not the proposed action will have a significant effect
on the environment. All inquiries concerning preparation of the environmental
documents should be directed to the Lead Agency.

RELATIVE TO PROTESTS

Protests may be based on possible injury to vested rights or an allegation that
the proposed appropriations would not be within the Board's jurisdiction; would
not be in the public interest, would have an adverse environmental impact, or
would be contrary to law. Any person desiring to protest the Board's issuance
of permits pursuant to these applications shall within 40 days from date hereof
(or within such further time as may, for good cause shown, be allowed) file a
written protest with the State Water Resources Control Board, 77 Cadillac
Drive, Sacramento, California 95825 in care of the contact person specified
below. Protest forms will be furnished free of charge upon request. A copy of
any protest shall be sent to the applicant.

BY WHICH PERMITTEE SHALL COMPLETE THE AUTHORIZED PROJECT, INCLUDING

COMPLIANCE WITH ALL PERMIT TERMS AND CONDITIONS, AND MAKE FULL BENEFICIAL USE OF WATER: 12/01/1995

COMPLIANCE WITH PERMIT TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use necessary to establish your water right as well as your compliance with the terms and conditions of your water right permit. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. ☒ YES ☐ NO I have currently reviewed my water right permit.
2. ☒ YES ☐ NO I am complying with all terms and conditions listed in the permit. Identify any noncompliance under "Remarks" on the reverse side.
3. ☐ YES ☒ NO I have changed the intake location, type(s) of use, and/or place of use authorized by the permit. If YES, explain under "Remarks" on reverse side. **Note: A Change Petition & associated fees may be required for any significant changes to the permitted project.**

PERMITTED PROJECT STATUS: California Water Code sections 1396 and 1397 requires a permittee(s) to exercise due diligence in developing an appropriate water right project so that the project is completed within the time period specified in the permit. Time extensions may be authorized for good cause.

CHECK ONE OF THE FOLLOWING CONCERNING YOUR WATER RIGHT PROJECT STATUS:

4. ☐ **REVOCATION** - The project has been abandoned and I request revocation of the permit.
5. ☒ **PROJECT COMPLETE** - The project has been completed. I have made full beneficial use of water as to the diversion rate, amount, and season specified in the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a water right license be issued.
6. ☐ **PROJECT HAS NOT BEEN COMPLETED**
If the project has not been completed, please answer the following:
 - a. ☐ YES ☐ NO Has construction work commenced?
 - b. ☐ YES ☐ NO Is construction completed?
 - c. ☐ YES ☐ NO Have the permitted beneficial uses of water commenced?
 - d. ☐ YES ☐ NO Will the project be completed within the time period specified in the permit?
 - e. Explain what work remains to be done: _____

- f. Give the estimated date of completion of the project, including maximizing beneficial use of water: _____
Note: A time extension petition and associated fees may be required if the project is not completed within the time period specified in the permit.

BENEFICIAL USE(S) OF WATER: (Note: See reverse side for a summary of the beneficial uses of water authorized under your permit.)

7. If your use of water has commenced, check the appropriate boxes below and explain how the water was used:

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.

(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)10. ☒ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

11. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below:

_____ (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)12. ☐ YES ☒ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

13. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

_____ (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)14. ☐ YES ☒ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your permit?

15. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

_____ (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

The place of use is shown on map filed with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 0.293 cubic foot per second to be diverted from January 1 to December 31 of each year. The maximum amount diverted under this permit shall not exceed 212 acre-feet per year. (0000005)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)

7. Complete application of the water to the authorized use shall be made by December 1, 1995. (0000009)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (0000010)

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

12. This permit shall not be construed as conferring upon the permittee right of access to the point of diversion. (0000022)

13. The equivalent of the continuous flow allowance for any 7-day period may be diverted in a shorter time, provided there be no interference with other rights and instream beneficial uses; and provided further that all terms or conditions protecting instream beneficial uses be observed. (0000027)

14. Permittee shall consult with the Division of Water Rights and the California Department of Water Resources and develop and implement a water conservation plan or actions. The proposed plan or actions shall be presented to the Board for approval within one year from the date of this permit or such further time as may, for good cause shown, be allowed by the Board. A progress report on the development of a water conservation plan may be required by the Board within this period.

(0000029)

15. In accordance with the requirements of Fish and Game Code Section 5946, this permit is conditioned upon full compliance with Section 5937 of the Fish and Game Code.

(0140066)

16. No water shall be used under this permit until the permittee has filed a report of waste discharge with the California Regional Water Quality Control Board, Lahontan Region, pursuant to Water Code Section 13260, and the Regional Board or State Water Resources Control Board has prescribed waste discharge requirements or has indicated that waste discharge requirements are not required. Thereafter, water may be diverted only during such times as all requirements prescribed by the Regional Board or State Board are being met. No discharges of waste to surface water shall be made unless waste discharge requirements are issued by a Regional Board or the State Board. A discharge to ground water without issuance of a waste discharge requirement may be allowed if after filing the report pursuant to Section 13260:

- (1) the Regional Board issued a waiver pursuant to Section 13269, or
- (2) the Regional Board fails to act within 120 days of the filing of the report.

No permittee shall be required to file a report of waste discharge pursuant to Section 13260 of the Water Code for percolation to the groundwater of water resulting from the irrigation of crops.

(0290101)

17. The State Water Resources Control Board reserves jurisdiction over this permit to revoke or modify it, including the possibility of a physical solution, to conform to the determination of any final judgment or decree in National Audubon Society, et al. v. Department of Water and Power of the City of Los Angeles, et al.

(0350600)

18. The maximum simultaneous rate of diversion and the total quantity of water diverted for domestic and municipal use under this permit, together with that diverted under licensed Application 16687 and permitted Applications 27239, 27220, and 28124, shall not exceed 0.74 cubic foot per second and 536 acre-feet per annum, respectively.

(0000114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

COMPLIANCE WITH PERMIT TERMS AND CONDITIONS

This Report is important in providing the record of your actual water use necessary to establish your water right as well as your compliance with the term and conditions of your water right permit. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. I have currently reviewed my water right permit: **Yes X**
2. I am complying with all the terms and conditions listed in the permit : **Yes X**
Identify any noncompliance under "Remarks" below.
3. I have changed the intake location, type(s) of use, and/or place of use authorized by the permit. If yes, explain under "Remarks" below.

Note: A Change Petition and associated fees may be required for any significant changes to the authorized project.

No

PERMITTED PROJECT STATUS

California Water Code section 1396 and 1397 require that permittee(s) exercise due diligence developing an appropriate water right project so that the project is completed within the time period specified in the permit.

Time extensions may be authorized when there is good cause.

4. REVOCATION

The project has been abandoned and I request revocation of this permit.

5. PROJECT COMPLETE

The project has been completed. I have made full beneficial use as to diversion rate, amount, and season anticipated under the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a license be issued.

6. PROJECT HAS NOT BEEN COMPLETED

if the project has not been completed, please answer the following:

- a. Has construction work commenced?
 - b. Is construction completed?
 - c. Have the permitted beneficial uses of water commenced?
 - d. Will the project be completed within the time period specified in the permit?
 - e. Explain what work remains to be done:
 - f. Give the estimated date of completion of the project, including maximum beneficial use of water:
- Note: A time extension petition and associated fees may be required if the project is not completed within the time period specified in the permit.*

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT

(Please note that future amendments to claims below will not be accepted)

An appropriate water right can reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions that no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts, (b) use of recycled, desalinated or polluted water, and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER (Water Code section 1010)

10. During the period covered by this Report, were you implementing any water conservation efforts ?

Yes

If YES, please describe :

Even though water supply sufficient in 2002 customers notified to continue to conserve water. District started a meter installation program in 2002 with completion by 2007

11. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below: in (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

COMPLIANCE WITH ALL PERMIT TERMS AND CONDITIONS, AND MAKE FULL BENEFICIAL USE OF WATER: 12/01/1995

COMPLIANCE WITH PERMIT TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use necessary to establish your water right as well as your compliance with the terms and conditions of your water right permit. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. ☒ YES ☐ NO I have currently reviewed my water right permit.
2. ☒ YES ☐ NO I am complying with all terms and conditions listed in the permit. Identify any noncompliance under "Remarks" on the reverse side.
3. ☐ YES ☒ NO I have changed the intake location, type(s) of use, and/or place of use authorized by the permit. If YES, explain under "Remarks" on reverse side. **Note: A Change Petition & associated fees may be required for any significant changes to the permitted project.**

PERMITTED PROJECT STATUS: California Water Code sections 1396 and 1397 requires a permittee(s) to exercise due diligence in developing an appropriate water right project so that the project is completed within the time period specified in the permit. Time extensions may be authorized for good cause.

CHECK ONE OF THE FOLLOWING CONCERNING YOUR WATER RIGHT PROJECT STATUS:

4. ☐ **REVOCATION** - The project has been abandoned and I request revocation of the permit.
5. ☒ **PROJECT COMPLETE** - The project has been completed. I have made full beneficial use of water as to the diversion rate, amount, and season specified in the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a water right license be issued.
6. ☐ **PROJECT HAS NOT BEEN COMPLETED**
If the project has not been completed, please answer the following:
 - a. ☐ YES ☐ NO Has construction work commenced?
 - b. ☐ YES ☐ NO Is construction completed?
 - c. ☐ YES ☐ NO Have the permitted beneficial uses of water commenced?
 - d. ☐ YES ☐ NO Will the project be completed within the time period specified in the permit?

e. Explain what work remains to be done: _____

f. Give the estimated date of completion of the project, including maximizing beneficial use of water: _____

Note: A time extension petition and associated fees may be required if the project is not completed within the time period specified in the permit.

BENEFICIAL USE(S) OF WATER: (Note: See reverse side for a summary of the beneficial uses of water authorized under your permit.)

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.

(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)10. ☒ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:Same on all permit

11. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below:

_____ (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)12. ☐ YES ☒ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

13. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

_____ (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)14. ☐ YES ☒ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your permit?

15. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

The place of use is shown on map filed with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 0.293 cubic foot per second to be diverted from January 1 to December 31 of each year. The maximum amount diverted under this permit shall not exceed 212 acre-feet per year. (0000005)
6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)
7. Complete application of the water to the authorized use shall be made by December 1, 1995. (0000009)
8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (0000010)
9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)
10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.
- The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)
11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)
12. This permit shall not be construed as conferring upon the permittee right of access to the point of diversion. (0000022)
13. The equivalent of the continuous flow allowance for any 7-day period may be diverted in a shorter time, provided there be no interference with other rights and instream beneficial uses; and provided further that all terms or conditions protecting instream beneficial uses be observed. (0000027)

14. Permittee shall consult with the Division of Water Rights and the California Department of Water Resources and develop and implement a water conservation plan or actions. The proposed plan or actions shall be presented to the Board for approval within one year from the date of this permit or such further time as may, for good cause shown, be allowed by the Board. A progress report on the development of a water conservation plan may be required by the Board within this period.

(0000029)

15. In accordance with the requirements of Fish and Game Code Section 5946, this permit is conditioned upon full compliance with Section 5937 of the Fish and Game Code.

(0140066)

16. No water shall be used under this permit until the permittee has filed a report of waste discharge with the California Regional Water Quality Control Board, Lahontan Region, pursuant to Water Code Section 13260, and the Regional Board or State Water Resources Control Board has prescribed waste discharge requirements or has indicated that waste discharge requirements are not required. Thereafter, water may be diverted only during such times as all requirements prescribed by the Regional Board or State Board are being met. No discharges of waste to surface water shall be made unless waste discharge requirements are issued by a Regional Board or the State Board. A discharge to ground water without issuance of a waste discharge requirement may be allowed if after filing the report pursuant to Section 13260:

- (1) the Regional Board issued a waiver pursuant to Section 13269, or
- (2) the Regional Board fails to act within 120 days of the filing of the report.

No permittee shall be required to file a report of waste discharge pursuant to Section 13260 of the Water Code for percolation to the groundwater of water resulting from the irrigation of crops.

(0290101)

17. The State Water Resources Control Board reserves jurisdiction over this permit to revoke or modify it, including the possibility of a physical solution, to conform to the determination of any final judgment or decree in National Audubon Society, et al. v. Department of Water and Power of the City of Los Angeles, et al.

(0350600)

18. The maximum simultaneous rate of diversion and the total quantity of water diverted for domestic and municipal use under this permit, together with that diverted under licensed Application 16687 and permitted Applications 27220, 27239, and 28123, shall not exceed 0.74 cubic foot per second and 536 acre-feet per annum, respectively:

(0000114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

(Please note that future amendments to claims below will not be accepted)

An appropriate water right can reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions that no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts, (b) use of recycled, desalinated or polluted water, and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER (Water Code section 1010)

10. During the period covered by this Report, were you implementing any water conservation efforts ?

Yes

If YES, please describe :

Even though water supply sufficient in 2002 customers notified to continue to conserve water. District started a meter installation program in 2002 with completion by 2007

11. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below: in (specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

WATER QUALITY AND WASTEWATER RECLAMATION (Water Code section 1010)

12. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses? **No**

13. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below: in

(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

CONJUNCTIVE USE OF SURFACE WATER AND GROUNDWATER (Water Code section 1011.5)

14. During the period covered by this Report, were using groundwater in lieu of the surface water authorized under your permit? **No**

15. If Yes and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below: in

(specify the amount in acre-feet or million gallons) Future amendments to this claim will not be accepted.

COMPLIANCE WITH ALL PERMIT TERMS AND CONDITIONS, AND MAKE FULL BENEFICIAL USE OF WATER: 12/01/1995

COMPLIANCE WITH PERMIT TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use necessary to establish your water right as well as your compliance with the terms and conditions of your water right permit. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. ☐ YES ☐ NO I have currently reviewed my water right permit.
2. ☐ YES ☐ NO I am complying with all terms and conditions listed in the permit. Identify any noncompliance under "Remarks" on the reverse side.
3. ☐ YES ☐ NO I have changed the intake location, type(s) of use, and/or place of use authorized by the permit. If YES, explain under "Remarks" on reverse side. *Note: A Change Petition & associated fees may be required for any significant changes to the permitted project.*

PERMITTED PROJECT STATUS: California Water Code sections 1396 and 1397 requires a permittee(s) to exercise due diligence in developing an appropriate water right project so that the project is completed within the time period specified in the permit. Time extensions may be authorized for good cause.**CHECK ONE OF THE FOLLOWING CONCERNING YOUR WATER RIGHT PROJECT STATUS:**

4. ☐ **REVOCATION** - The project has been abandoned and I request revocation of the permit.
5. ☐ **PROJECT COMPLETE** - The project has been completed. I have made full beneficial use of water as to the diversion rate, amount, and season specified in the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a water right license be issued.
6. ☐ **PROJECT HAS NOT BEEN COMPLETED**
If the project has not been completed, please answer the following:
 - a. ☐ YES ☐ NO Has construction work commenced?
 - b. ☐ YES ☐ NO Is construction completed?
 - c. ☐ YES ☐ NO Have the permitted beneficial uses of water commenced?
 - d. ☐ YES ☐ NO Will the project be completed within the time period specified in the permit?
 - e. Explain what work remains to be done: _____

- f. Give the estimated date of completion of the project, including maximizing beneficial use of water: _____

Note: A time extension petition and associated fees may be required if the project is not completed within the time period specified in the permit.

BENEFICIAL USE(S) OF WATER: (Note: See reverse side for a summary of the beneficial uses of water authorized under your permit.)
